

- Milestone 1 *Visualize Geolife User Data, Implement Stay-point algorithm.*
- Milestone 2 *Implement hourly weights, Markov Model, Prediction Algorithm.*
- Milestone 3 *Refine stay-point detection, Markov Model, prediction algorithm and tests.*
- Milestone 4 *Implement stay-point detection on Android.*
- Milestone 5 *Implement location prediction algorithm on Android and tests.*
- Milestone 6 *Submit the first draft of report for review.*
